

## Developing **Leaders Fellows** Program

This 12-month program is designed to support the development and successful transition of selected students into the workplace by connecting them with mentors in companies across the nation. Students apply and take part in an assessment and then select mentors each quarter on topics of their choosing and connect to available job opportunities from the participating employers.

## Benefits

1. **Access to a network of mentors from companies across the nation**
2. **Skill development that meets students where they are**
3. **Opportunity to build network and visibility**
4. **An opportunity to select up to four different mentors**
5. **Significant visibility for job connections**

Students take part in an assessment and select a leadership topic each quarter and a mentor to work with them on the selected topic and take advantage of supplemental learning on the chosen skill.

## Audience

Applications are open to students who are committed to their development and passionate about the development of others. Program requires a time commitment of 1-2 hours each month.

## Sample Topics

**Leadership**

**Time Management**

**Communication**

**Interviewing Skills**

**Building Confidence**

**Team Building**

**Resume Writing**

*"I have enjoyed the conversations with my mentor because she was able to answer some questions and concerns I have about my own career path. Connecting with someone in the field has made me feel more confident about the direction I am headed in and excited for building a good mentor-mentee relationship."*
